## DON'T WANT MAJORS SAVED

Statements of the Wife and Mother of Capt. Brown, Who Was Slain by Majors.

Consider that Any Interference With the Court's Decision Would be an Outrage on Justice.

There has been a rumor circulated around to the effect that when the case of Abe Majors for commutation comes up before the board of pardons on the 21st inst., the family of the late Capain William A. Brown, whom Majors has been found guilty of killing, will take a hand in the matter of obtaining commutation from death sentence to ife imprisonment for the prisoner, and hat the family have expressed their sire to have the prisoner's sentence anged to life imprisonment or par-1. Hattie Brown, his widow, was at her home and made the follow. statement, with tears in her eyes d often filled with such grief that she uid not speak for a few moments: "I we heard the rumor which is being culated that I desire to have the death sentence of the state of hing, and I think that the movement have Majors pardoned or his senence commuted is an outrage and a ravesty on justicy, and think it would very unjust for the board of parhas been given every possible chance to prove his innocence of the crime with was charged; if he had been ocent, but he was proven guilty of a foul murder in the district court, and the Supreme court affirmed the decision, nd now I think that the law should ake its course and that Majors should uffer for his crime. I don't think that nyone could feel more sorry for Mrs. Majors, the mother of the condemned man, than I do, as I understand she man, than I do, as I understand sne has passed through considerable trouble, and I know a mother's love for her child, but I feel sorry for myself and dear child, who are left fatherless, and for the mother of my dear husband, whose health is broken down through the sad affliction of having her son shot

OGDEN NEWS BRIEFS.

Last evening a very pleasant social was had at the First M. E. church in honor of Mr. and Mrs. A. S. Cates, who have been very zealous workers in the church during the past few years, but have decided to leave Ogden, Mr. Cates having accepted a position at Mercur as cashier of a large mercantile business; while here in Ogden he has acted as paying teller in the Utah National Bank. A very delightful program was rendered at the social and the evening will long be remembered by Mr. and Mrs. Cates.

Burglary at Goshen - Stricken With Appendicitis-Stake Conferences.

Special Correspondence. Provo, July 13 .- The safe in the store of Peter Okelberry at Goshen was blown open last night some time and robbed. An entrance to the store was gained through the back window. The robbers secured a considerable amount of plunder, consisting of about \$90 in cash, some Church bonds, a gold filled watch and an old silver, key winder watch; a B. F. & W 38-caliber revolver, a razor and pocket knife, and a leather pocket book, containing notes, etc. As soon as notified of the burglary Sheriff Storrs proceeded to Goshen to discover if possible any clues to lead up to the arrest of the burglars. It is thought to be the work of tramps, as two suspicious characters were seen in Goshen. One is described as a halfbreed negro, and the other a small light complexioned man about 20 to 25 years of age, and weighing about 155

'Smallpox" Situation - Harvest is Light-Will Celebrate the 24th.

Special Correspondence.

Fillmore, Millard Co., Utah, July 13 .--John T. Ashman, who has been con-fined with "smallpox," has nearly re-covered from his affliction, but his wife and one child are suffering with the same disease. The local board of health is taking every precaution to prevent the spread of the disease and it is hardly likely that there will be any new

ase outside of the family. Harvest is progressing nicely but the yield is very light compared with previous years owing to a scarcity of water for irrigation, but the people are looking for a better season next year and trusting to providence to send them the usual supply of moisture to mature their crops.

Some preparations are being made to hold a grand celebration here on the 24th of this month and the program which was announced for the Fourth and held over on account of smallpox, will be carried out as far as it is appropriate to Pioneer day; no doubt a great effort will be made to have an enjoyable time because there has not been any public gatherings of any kind for the last three weeks.

In the new electric battery of Poppenberg, the positive electrode is a hollow cylinder of retort carbon filled with depolarizing matter and closed at the bottom by an insulating plate, the negative is a cylinder of zinc, and the two rest on a horizontal porous plate or diaphragm, beneath which is a thick layer of sulphate of soda, with or without a little common salt. When water is poured into the cell, part of it passes through the porous diaphragm, dissolving the salt. The solution passes by endosmose into the water above, forming an electrolyte that varies but slightly with time, and causes the battery to retain its strength for a long period. The electromotive force is about two volts.

Miss A. M. Roberson, 198 S. Fitzhugh Street, Rochester, N. Y., tells how Dr. Williams' Pink Pills saved her life.

"Three years ago I was in a pitiable condition; I had just reached that critical stage in a girl's life when she merges from girlhood into woman-hood. I had grown too fast and the rapid growth had sapped my strength. Consequently, when the change which is incident to this time of life took place, my system was unequal to it and I broke down completely. I was scarcely able to drag myself from one chair to another. My face was white as a sheet, and I looked as though I had not a drop of blood in my body. I became so nervous that at times I was hysterical. One day a friend told me about Dr. Williams' Pink Pills for Pale People, and induced me to try them. I did so, and improved rapidly. I gained in weight, grew strong, my cheeks took on a healthy color, and I looked and felt like a different girl. In fact, I was made well enough in three months to be able to accept a position and start to work. I cannot praise Dr. Williams' Pink Pills for Pale People too highly, as they have made of me a strong and healthy girl."

Subscribed and sworn to before me this 6th day of July, 1899. FRANK DOEHLER, Notary Public.
